EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 1-20 and 22-37.

Claims 1-20 and 22-37 have been cancelled according to MPEP 818.03(c), where it is stated that after a final requirement for restriction, the applicant, in addition to making any reply due on the remainder of the action, may petition the Commissioner to review the requirement. The petition may be deferred until after the final action on or allowance of claims to the invention elected, but must be filed not later than appeal. A petition will not be considered if reconsideration of the requirement was not requested (see 1.181). Further, if the applicant does not distinctly and specifically point out supposed errors in the restriction requirement, the election should be treated as an election with out traverse and be so indicated to the applicant.

Since applicants' have not responded to the final requirement for restriction, the examiner has considered this as an election without traverse and has canceled the claims.

2. The following is an examiner's statement of reasons for allowance: ■

Art Unit: 1746

The prior art of record fails to teach a product as set forth in the instant claims where an aqueous suspension of crystalline nanoscale ceramic electrolyte material is modified by adding coarse particles of the ceramic electrolyte material to form a coating on a substrate that when dried is between 10-80 microns thick and after heating such as by calcining and sintering forms a layer of between 5-40 microns. A coating made in such a manner does not crack or have other defects, that coatings of the prior art have with just nanoscale materials, since it is known to persons of ordinary skill in the art to have tremendous shrinkage of the substrate and coating during the densification of the materials.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bruce F. Bell whose telephone number is 571-272-1296. The examiner can normally be reached on Monday-Friday 6:30 AM - 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on 571 272-1302. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
